PROFESSIONAL SUMMARY

Computer Science graduate pursuing a Cloud Computing internship and building practical skills in AWS, Linux and DevOps. Hands-on exposure to AWS EC2 automation with a strong interest in cloud infrastructure, automation and CI/CD. Seeking an entry-level DevOps or Cloud opportunity.

TECHNICAL SKILLS

Cloud: AWS (IAM, S3, EC2, Lambda) | **Operating Systems:** Linux | **DevOps:** Git/GitHub, CI/CD concepts | **Currently Learning:** Docker, Jenkins, Terraform | **Programming/Scripting:** Python, Bash/Shell basics | **Networking:** Computer Networking fundamentals

PROJECT

AWS Automatic EC2 Start/Stop Automation

- Built an AWS automation project to schedule EC2 instance start/stop operations based on defined timing.
- Worked with AWS IAM and Lambda concepts for automated EC2 operations.
- Configured scheduling and tested automated instance operations with the goal of reducing unnecessary compute usage.

INTERNSHIP

Cloud Computing Intern — ITROOTS PVT. LTD., Pune | 6-month internship (Pursuing)

- Gaining practical exposure to AWS cloud services, Linux and cloud computing concepts.
- Working on hands-on cloud tasks and strengthening AWS fundamentals.
- Building practical understanding of cloud infrastructure and automation.

EDUCATION

- Bachelor of Computer Science — Shivaji University, Kolhapur

ADDITIONAL PROJECT

Timeless Watches — Shopping Website | Nov 2025 – Mar 2026

- Developed an e-commerce website as a final-year project.
- Implemented product listing and a user-friendly interface using ASP.NET.

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- Python Programming Language
- MS Excel
